

Perspective. Passion. Impact.

Meradia is a consulting firm that helps investment management firms maximize operational efficiency and manage change initiatives. This change is often in the form of operational transformation as firms seek to replace or enhance their data management, trading, accounting, investment performance or information delivery (reporting) capabilities. Meradia has been leading and executing these strategic initiatives since 1997 with an emphasis on data quality, automation and cost control. We help our clients improve their results through a unique combination of technical expertise, experience and a passionate commitment to our clients' success.

Our solution methodology is guided by three principles:

Perspective.

Meradia's diverse platform experience and collective breadth of knowledge and expertise provide the insight needed to help solve client challenges and ensure project success.

Passion.

For 20+ years, Meradia focus is on our clients' success, surpassing goals and exceeding expectations. From start to finish, our clients' success is more important than our own.

Impact.

In every endeavor and every interaction, Meradia strives to meaningfully influence transformative change within our clients' organizations.

Head of Operations

Meradia is recruiting for Head of Operations to direct consulting teams and activities. Head of Operations will be part of Meradia's executive management and will lead Meradia's experienced consulting team. This position will also manage Meradia's recruiting efforts and collaborate with business development to establish Meradia's approach to client project and proposals. While this Philadelphia-based role will be approximately 35% billable, the position is primarily a management function.

Ideal candidates will have the following:

- Consulting mindset honed either from experience as a consultant or from a management position(s) where selecting and engaging consultants was an significant part of one's roles.
- Minimum 15 years in the investment management or financial services industry and 10+ years in a combination of operational and IT roles.
- In-depth expertise in Trading Operations, Investment Accounting, Investment Performance, Information Delivery or Data Management. Candidate should be considered an expert in at least one of our core service offerings.
- Competent negotiation skills.
- Excellent interpersonal, verbal and written communication skills. Exceptional communication and emotional intelligence are key to success.
- Strong analytical mindset.
- Ideal candidates will have the following:
