

## Visual Storyteller

### DUTIES AND RESPONSIBILITIES

The Visual Storyteller will work directly with Meradia's executive management team to develop powerful and engaging presentations. This individual will bring complex ideas to life by digesting technical messages and translating these concepts for both internal and external audiences.

### REQUIREMENTS

- Support Meradia's Managing Directors by conceptualizing their ideas and designing presentations for clients, prospects and, on occasion, internal constituents
- Amplify the impact of our presentations through vibrant graphics, well-organized slide decks and streamlined content
- Articulate messaging in a way that's designed to drive organizational change, and serve as a "shareable" document at client organizations
- Enable the executive team to visually "land" their next project update, work milestone, sales pitch, etc.
- Collaborate with the marketing team to maintain company-wide presentation design standards and templates

### SKILLS & ABILITIES

- Work fluently in PowerPoint, with familiarity in Adobe Creative Suite
- Quickly interpret complex messages
- Advance multiple projects simultaneously
- Detail-oriented

### KNOWLEDGE & EXPERIENCE

- Executive collaboration and presentation design
- Graphic design experience preferred, but not required
- Financial services or management consulting experience
- Knowledge of investment operations
- Bachelor's degree or equivalent experience
- 5+ years of relevant experience

### MERADIA OFFERS

- Competitive compensation
- Excellent benefits, including health, vision, dental and an employer-provided savings plan with contribution matching
- The opportunity to develop and expand on your existing skillset
- The opportunity to join a growing team of industry-leading professionals
- Routine exposure to new projects, challenges and concepts

### ABOUT MERADIA

Meradia specializes in providing strategic advisory and implementation services to the global investment management industry. We align front-, middle-, and back-office organizations and technical platforms with our clients' business direction and vision. Our team leverages decades of experience in financial services to lead our clients' most pressing investment operations and technology transformation projects. Solving business challenges, including strategic assessment, workflow optimization, vendor selection, and system implementation – our clients depend on us for a complete solution.
